Projects

Zodi-App (Python, Javascript, React, Redux HTML5, AWS , AztrosJS API ,and CSS)   **Live Site | Github**

A fullstack astrology application that allows users the ability to calculate their signs, , sign compatibility, daily horoscope through socially interactive feed.
- Utilized **boto3 SDK** for Python allowing users to update their profile images through Amazon Web S3 Service.
- Through the use of **Flask-SQLAlchemy,** model relationships and self referencing tables were used to create easy/quick querying from database.
- An external API Wrapper (**AztrosJS**) allowed daily fetches of user horoscope to be made available.
- The use of React and Redux allowed for data to be rendered in the front end as well as the modularity of the UI/UX

Whereabouts (Python, Javascript, React, Redux HTML5, AWS, Google Maps API, and CSS)   **Live Site | Github**

A fullstack randonautical application that allows users to generate random locations based coordinates,then allowing those users to post their "mission" for other users to interact with.
- Implementation of **Google Maps API** allowed each user to have a truly unique experience
- The use of site wide **CSS** variables allowed stylistic consistency to be displayed throughout the application

Bublcat Buddies(Javascript, React, Redux, HTML5 and, CSS)   **Live Site | Github**

A fullstack Meet-up inspired clone centered around cats! Users have the ability to create and rsvp events as well as and follow other users for potential meet-ups.
- Bublcat's mission is allowing the experience of cats and their owners to be enjoyed in public space and I wanted to build an application that fostered that.
- The added usability of adding a friends model allowed extra added functionality that also aided towards this mission statement

FoodHub(Javascript, HTML, Pug, and CSS)   **Live Site | Github**

A fullstack Good-Reads mock-up that allows users to rate restaurants they've been too and add potential restaurants to a user list.

Experience

Bublcat, *Owner*   Atlanta, GA   March 2021-Now
- Earlier on this year I started my own business that was meant to foster the outward socialization on cats. I went through the process of learning how to
- talk to suppliers,
- negotiate prices,
- draft contract , and
- devise a marketing plan
- Used Adobe Illustrator to create logos and style guides, and

I hired designers to make my artistic visions come to life and through Shopify built my own website. I hope to continue investing more time and efforts in
